

## Welcome to onCampus@BL!

The Boys' Latin Technology Department is excited to announce **onCampus@BL**, our new student information and learning management system. As requested, the system is intuitive and responsive for all mobile devices. **onCampus@BL** will connect you with all facets of your son's academic, athletic and community experience. Families will be able to view grades, assignments, attendance, conduct, report cards/transcripts, as well as athletics schedules, results, rosters and directions to events. An internal messaging system and student/family directories are available for easy community communication.

To begin your **onCampus@BL** experience, visit the [Boys' Latin website](#) and click **myBL** from the top menu. **myBL** includes a number of helpful links that do not require login as well as the **onCampus** login link.

During your first login, click **Forgot login or First time logging in?**, enter the email address at which you received this message and check both the username and password options. Username and password reset emails will be sent to your email address. Click of the link and reset your password.

To assure your personal information and communication settings are correct, please click on your name at the top and visit:

- **Profile** to confirm you and your relations's contact information for the directory.
- **Settings/Notifications** to forward onCampus messages and other communications to your email and/or text message.
- **Settings/Privacy** to confirm your privacy settings for the directory.

Although data changes with summer forms closed in late July, parents and guardians may update contact information for the direction by tomorrow, September 8 by 5 PM. After that time, changes will only be reflected on the digital directory.

Once in the system you will be directed to the ever-growing **Resources** section. In the **onCampus@BL** topics, you will find a growing list of tutorial videos.

Your sons are getting acquainted with **onCampus** this week; please use them as a resource to help you navigate the system. We hope you enjoy the new system and appreciate the wealth of information available.
